ALL SORTS.

—Wizard Oil at Geo. Thaxter's.
—The fire in Con. Virginia is out.

—Hon. T. B. Riekey was in town yesterday.

—Ex-Senator Haines was in the city yesterday.

—Lady Campbell won her ease in the divorce suit.

—The Christmas trees are coming in from the mountains.

—W. H. Whelan of the Salt Lake Democrat is visiting the Comstock.

—Stocks were better yesterday. The Gold Hillers were especially firm.

—Flannagan, the Gold Hill man who killed his sister, has been held to answer without bonds.

—When Italy called for 35,000 lines "Gath" raised his voice and answered "present."—Alta.

—The interior of the Capitol has been furnished up in splendid style for the incoming solons.

—What's become of that speech Powning was going to deliver at the Opera House at Virginia City on the 21 inst?

—Lost.—A suitable reward will be paid by Mrs. H. M. Yerington for the recovery of a gold bracelet set with garnets. Lost between residence and Olcovich's store, Dec. 21.

—Washoe County is demanding more positions in the Legislature than the rest of the State combined. If this county takes a single trick it will be a sop thrown to Mugwumpery which no Republican should tolerate.

—No other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as Ayer's Sarsaparilla. It is the best combination of vegetable blood purifiers, with the iodide of Potassium and Iron ever offered to the public.

—A clear head is indicative of good health and regular habits. When the body feels heavy and languid, and the mind works sluggishly, Ayer's Cathartic Pills will wonderfully assist to a recovery of physical buoyancy and mental vigor. The constipated should use them.

—The procession of the striking messenger boys in San Francisco, caused a great deal of amusement and created a great deal of sympathy, too. They are a bright spirited-looking lot of little fellows. One of their transparencies read: "How Can We Support Our Mothers on 40 Cents a Day?"

—The Salt Lake Tribune says the Utah smelters are to find a strong rival in the new Reno, Nevada, smelting, milling and reduction works, as the Central Pacific is playing right into their hands, and it is now prophesied will do all it can to divert the ore streams of this section from Denver and Salt Lake. The works are just being completed, they have water power from the Truckee river and propose to capture all the ore possible.

—Years ago, some say forty, others thirty,—a young girl was in the act of placing a white pitcher on a post which stands near the South Carolina Railway, five miles from Aiken, when she was struck dead by lightning. Eversince this tragic occurrence the white pitcher has remained on the post, safe by superstition from the touch of negroes, who believe that the arm which touches it will be paralyzed. Storms and cyclones and earthquakes have not displaced it, although the post which holds it is fast crumbling with decay.

PUBLIC SALE.

Pursuant to an order made by the Judge of the Second Judicial District Court in and for Ormsby County, Nevada, on the 21st day of August, 1886 the undersigned administrator of the estate of Edward Wilcott, deceased, will sell the whole of said estate to the highest and best bidder at public sale on the 22nd day of December, 1886, at the hour of 2 o'clock P. M., of said day, the sale to take place upon the premises herinafter described.

The property consists of the following, to wit:
Lot numbered two, (2) three (3) and six (6) and North half (1/2) of lot numbered seven (7) all in Block number forty four (44) Sears Thompson and Sears Division of Carson City, Nevada, together with all and singular the tenements, hereditaments and appurtenances thereto belonging. Also the household goods and furniture, consisting of: sewing machine, stove, etc., situate in, upon and about the premises above described.

WILLIAM RIDLER,
Administrator.

A NEVADA PAMPHLET.

Something that Ought to be Going On All Over the East.

One cannot ride on a train East of the Rocky Mountains that a pamphlet is not thrown into his lap, descriptive of the wonders of California, of Colorado, of Dakota, of Oregon, and in fact every State of the West except Nevada.

The State should appropriate at least \$5,000 a year, if not \$10,000, to advertise the resources of Nevada State.

This pamphlet should contain first, a detailed description of our unrivaled climate, backed up by the meteorological tables, which have been carefully kept by Chas. Friend for some twenty years back. The publication of these tables, showing the temperature, the number of pleasant days in the year, etc., would astonish the people of the East.

The mere assertion of a good climate cuts but little figure, but well authenticated tables carry conviction with them to the minds of the most skeptical.

Also publish the amount of good agricultural land yet unlocated in this State, with maps showing the meadow land, water courses, etc.

The cost of locating, the price per acre, the terms of payment, the cost of clearing, and the chemical constituents of the soil should be carefully set forth.

Along with this description of the land, publish good pictures of the fruit and vegetables raised here. A few of W. J. Robinson's three and a half pound potatoes, the apples and pears raised by Gilson, and the immense ears of corn from the Bishop Creek section, together with pictures of some of the ranches where fruit bend the trees down, would convince anyone of the sort of country Nevada is, and the low prices of land cause thousands to stop here who now go to California.

A good cut of a pile of bullion stacked up on trucks would also interest the reader. By employing the photo lithographic process these things could be reproduced to the life and carry conviction that they were from the life and not a sketch of the artist's imagination. A pamphlet of 100 pages embracing a few of those points, would help this State hundreds of thousands of dollars and increase the taxable property to such an extent as to pay for itself ten fold. At least 100,000 of these pamphlets ought to be scattered over the East next Summer.

Burial of Michael O'Hare.

The late Michael O'Hare was buried from the Catholic Church yesterday, by father Meagher. The funeral was conducted under the auspices of Custer Post. The following acted as pall bearers:

Ed. Williams, John S. Cilly, Phil Doyle, T. J. Connolly, J. McCrimmon, E. Cross.

The funeral procession was very long, and all the fire companies were in line, along with the members of Custer Post, No. 5, of the G. A. R.

Public Sale.

Today William Riddler administrator of the estate of Edward Wilcott, will sell the same at 2 o'clock to the highest bidder. The real estate consists of property on block 44 of the Sears and Thompson division of Carson. It is advertised in another column.

New Magazine.

The Aurora Borealis is the title of a new magazine published by Bacon & Co. San Francisco. It is filled with interesting reading matter covering over 100 pages, printed in the same type as the Overland.

Charlie Wilson's Bereavement.

A private dispatch received here yesterday announced the death, in San Francisco of the wife of Charlie Wilson. Wilson's many friends in this city will sympathize with Charlie in his bereavement.

—The San Francisco strikers seem to be suffering from bad leadership. They have struck at a time when the city is full of idle men, glad to work at any price. Had they struck in the Fall when the city is cleared of idle men to work in the harvest fields, they would have had a much better show.

—The communication from a "newspaper stockholder" will be published when the author sends his name to this office and proves that he can substantiate what he says.

The Lottery Question.

The Sacramento Bee has the following.

The question of a lottery for the benefit of the State of California, first advanced by the Bee, together with another scheme for a lottery for the purpose of helping the city of Sacramento out of its financial difficulties, has occasioned much comment, not only in this State but in our sister State of Nevada as well. Of course, in California there is a constitutional inhibition against these lotteries. But we are in favor of the passage by the Legislature of an amendment to the Constitution, to be submitted to the people, which shall repeal this inhibition. Fully \$100,000 goes out of this State every month into the coffers of the Louisiana Lottery. Why not have this money kept in the State for the benefit of the State? We wonder how many of those too truly good people who hold up their hands in holy horror whenever a lottery for the benefit of the State of California is mentioned, are gambling every month in this Louisiana Lottery.

Speaking of lotteries, the Virginia City Enterprise says:

Of all forms of gambling this is the most degrading and pernicious. We will agree with the Enterprise that it is degrading and that it is pernicious. We do not believe, however, that it is one-tenth so vicious in its nature nor so demoralizing in its consequences as gambling in stocks, an exponent, advocate and organ of which the Enterprise has been for years. Stock gambling is an inter-State calamity. Yet it is recognized by the laws legitimate and numerous divines themselves dabble therein. Why permit men to commit the greater offense and debar them the pleasure of running themselves financially at the lesser? The law says gambling in a lottery is a crime and gambling in stocks is not, in which respect the law is an ass.

A Patron of "Home" Industry.

A few days since the Gazette took from a Carson paper the statement that Senator Stewart had purchased the balance of the block on which his residence stands, and was having the ground cleared and plowed. Yesterday his gardener was in Reno and ordered from R. P. M. Kelly of the Washoe Nursery, a fine assortment of fruit, shade and ornamental trees, besides a lot of choice shrubbery, with which Mr. Stewart is to beautify his grounds. —Reno Gazette.

The writer saw a plan of improvements that the Senator is to carry out this Spring. He has marked out a number of pear trees outside the fence. Some one suggested that the boys would steal the pears.

"I put this row out for the boys to take all they please. Put up an outside row of fruit for the boys and they never pass that row for your inside fruit. Oh I know boys" was the reply.

Diphtheria and Oil.

The latest thing about diphtheria is that kerosene causes the disease. A Meridan, Connecticut, man has observed that diphtheria takes hold in houses where kerosene is used for lighting, and that it never, or hardly ever, takes place in houses where candles or gas do the lighting. Moreover the Meridan man says that a patient with diphtheria gets better right away when kerosene is removed from the sick room and candles are substituted.

Several leading medicines have experimented and found that this theory is a correct one and in most of the hospitals and public buildings of the East gas is being substituted for kerosene with good effect.
